

School Shoes For Children

Somehow a boy can think of more ways to wear out shoes.

Playing marbles isn't so hard on his shoes as some other pastimes, but it is hard enough. The strain soon rips a shoe that is not well made.

It is poor economy to get a cheap shoe for an active boy. You will find that, in the long run, the

is really the most economical shoe you can buy.

These shoes are made of the best leather, especially selected. The boys shoes are made by the welt process—the best known method of fastening soles and uppers together. The girls shoes are made in both welt and turn soles.

They are made on good fitting lasts and will not hurt the feet or injure their shape. Both boys and girls shoes are dressy and attractive looking with wonderful wearing qualities.

Security Watch with Every Pair

Each purchaser of Security School Shoes is entitled to one of these handsome watches for only 50 cents. There isn't a dollar watch on the market as good. It is guaranteed for one year. We couldn't afford to make this offer except as an inducement for you to try Security School Shoes.

Bring the children in and let us fit them out with a pair of Security Shoes—they will prove a revelation to you in shoe value for children's shoes.
